EXPERIENCE

NARRATIVE SCIENCE

Seattle, WA

2018-present

Product Designer

- Design pixel-perfect mockups for new software features in Sketch
- Build rapid, interactive prototypes using JS/HTML/CSS
- Wireframe new ideas and user flows in Balsamiq
- Develop and maintain a site-wide style guide and accompanying frontend CSS framework
- Conduct user tests, research, and interviews

NARRATIVE SCIENCE

Chicago, IL

2014-2017

Software Engineer

- Designed three unique extensions for business intelligence tools using React/Redux/ES6
- Developed an Angular web app which serves over 20,000 free and paid users
- Implemented responsive designs using HTML/CSS
- Contributed to backend Node and Python project development
- Created a custom CMS for our marketing team using Django CMS

SHAWNEE MISSION NORTH HIGH SCHOOL

Overland Park, KS

2012-2014

Associate Director of Bands

- Conducted rehearsals of a 110-member marching band, as well as a 45-member symphonic band
- Instructed 5th and 6th grade band classes at six area elementary schools, totaling approximately 120 students
- Implemented a weekly after-school honor band program for 6th grade students which helped increase post-elementary band enrollment
- Collaborated with district music teachers to design and modify instrumental music curriculum
